

Libra is a vendor of software solutions for Enterprise Asset Management. Our development sites are located in Mannheim (Germany) and Sofia (Bulgaria), where developers, business analysts, and customer consultants are working on development, maintenance and support of the Libra System. We are looking for highly motivated software engineers from all parts of Europe to bring in their ideas and experience to help us reach our goals.

For our office in **Mannheim**, we are currently looking for a

Java Software Developer (m/f/d)

Your profile:

- Degree in Computer Science, Mathematics, Physics or a related field
- Experience with the Java programming language
- Familiarity with modern web technologies and the Java EE stack
- Ability to concentrate and work through complex problems
- Fluent in German and English
- Naturally curious and inquisitive
- Team player

Your tasks:

As part of our team, you will be responsible for conceptual design, building, documentation and testing of business applications for our international customers at all layers using the Libra Framework. Your daily efforts will be supported by modern development tools and a strong team of focused and motivated colleagues.

What we offer at Libra:

- A competitive salary
- A full-time position with a permanent contract
- Friendly and knowledge-driven environment in which you continuously learn and improve
- A strong and motivated team of professionals to support you in your daily tasks
- Flexible working hours

Take the next step!

If you felt intrigued, please take the next step and submit your CV to Ms Violeta Kitova at nextstep@libra.de
