

Libra is a vendor of Enterprise Asset Management applications for businesses having to manage a large range of facilities. Our development sites are located in Mannheim (Germany) and Sofia (Bulgaria). We are looking for highly motivated software engineers bringing in their abilities and ideas to extend and improve our products.

For the office in Sofia we are currently looking for a

Java Software Developer (m/f/d)

Your profile:

- University degree in computer science, mathematics, physics or engineering sciences
- 1+ years programming experience with Java
- avid developer
- focus on the essentials
- cooperative attitude
- fluent in English and/or German

Your tasks:

- develop and maintain business applications for highly scalable environments
- thorough testing and documentation of application code
- participate in agile development
- work closely with our product management to understand requirements and identify ways to improve our business solutions

What we offer at Libra:

- attractive salary
- permanent job placement
- working together with experienced developers
- knowledge-driven environment where you will grow
- flexible working hours

Take the next step!

If you feel intrigued, please send your CV to nextstep@libra.bg
